BUSINESS REVIEW, DISCUSSION AND ANALYSIS

The audited ensolidated profit of the Group for the year ended 31st December 2004 amounted to HKS1,383.06 million, an increase of 9.8 percent over 2003. This represents the highest profit level earlived by the Group since its litting in Mys 1996. The healthy financial position of the Group has presented excellent potential for its fixture development. As at 31st December 2004, total ret asset value amounted to INK313,047.46 million, and net each in hand was HKS3,709.35 million.

During the year, the Group faced enormous difficulties and challenges. At a result of the disposal of its entire investment in fixed-return elevated highway projects, the Group came short of HK\$700 million in fixed income, putting immense pressure on the Group parofits structure for the year. However, with continued offorts by the management and all staff members as well as strategic operations from each business unit, the Group achieved encouraging results during the year. Steedy growth in the consumer products segment has provided strong financial support for the Group and to the conforting of the Group infrastructure and medicine business exgeners. The success of the dual littings of Semiconductor Manufacturing International Corporation ("SMIC") on the United States and Hoap & Kong stock markets in March 2004 also brought in significant exceptional profits for the Group.

To focus on the development of the Group's core segments and businesses, the following measures were implemented during the year:

- creasing the scale of investments in, and operation of, water services and establishing a ong foundation for the Group's earning potential.
- During the year, maximizing on the excellent opportunities offered by the opening of water services to the market in Mainland China, the Group focused on the expansion of its water services to the market in Mainland China, the Group focused on the expansion of its water services havings. Despite strong compositions, the Group wos constraints for water tapply and sewage treatment services in five mainland cities. These projects will generate a capacity of approximately 28 million tonous of water supply, and sewage treatment with a total investment of RMRI.435 billion. General Water of China Co., Ltd. ("GWC") is one of the fasterization of the Company of the University of the Company of th
- Accelerating the development of tell road business in the Yangtze River Delta and improving operation to generate higher profits

The Group ellocated a total of RMB2 billion for the acquisition of the franchise for the Shanghai-Nanjing Expressive (Shanghai Section). Our management team stepped in the business operations of the project, restilling in a steedy improvement of its performance. The company has further been granted with tax incentives of fall weiver and 50 percent deduction in two successive fiver-year periods respectively which also contributed to a positive operating environment. In November 2004, the Croup-travester-RMBZR3-million to gruntines—130 percent stake in the Yongin Expressivay (Inhus Section) in the Zhiginag province. The Yongin Expressivay (Inhus Section) in the Zhiginag province. The Yongin Expressivay (Inhus Section) in the Zhiginag province. The Annual and Jiangsi provinces/[Vith its strategic geographical position, we are confident that the project will generate a favourable return on investment and become a new and reliable source of profit for the Group.

Restructuring the medical platform to enable further mergers and acquisitions in the pharmaceutical indusery

Over a period of 17 months, the Group successfully developed financing channels in the mainland capital market. First, is privatized SHC Medical Science and Technology (Group). Limited, formerly listed in the Grown Enterprise Market in Hange Mong; then it apoguiced a 56.63 percent share of Shanghai Industrial United Holding Co., Lid. ("St United"), listed on the A-share market of Shanghai Industrial United Holding Co., Lid. ("St United"), listed when the A-share market of Shanghai Stock Exchange, with the permission of the State-owned Assets Supervision and Administration Commission of the State Council, the Ministry of Commission. This restructuring chanbled the consolidation of the Group's and our parent group's medicine businesses into a single investment and operations, platform. This further improved the structure of the business, creating a Yavourable environment for the next round of enterprise restructuring, acquisitions and megen.

Effectively pursuing a strategy of asset operation to boost profit growth

During the year, the Group effectively pursued a strategy of asset operation, achieving remarkable results. SMIC was lissed in March 2004 and provided the Group with exceptional profits of approximately HK5632 million for the financial year. Meanwhile, our sale of approximately HK5632 million for the financial year. Meanwhile, our sale of the previous first of the provided of the

The Group divested its department retail business in 2003, followed by an orderly retreat fro The trough divested its department retail business in 2003, followed by an orderly retriest from investments in logistics and related businesses during the year releasing a cash income of approximately HK\$275.61 million. While maintaining overall profit levels, we will continue to divest non-core investments and focus our resources on improving business structure.

In recent years, the Group has been able to pursus its strategy of combining business and asset operations in a more effective manner. This has contributed to our strong results, further boosting our market value and profits.

The Group's infrastructure facilities business was established in 1996. Over these years, the focus has expanded from toll-toods to water services and port facilities, and infrastructure has become one of the Group's core businesses, in 2004, the infrastructure facilities business reported a net profit of around HKS156.13 million, representing 18.1 percent of the Group's net profit, excluding the exceptional profit from the listing of SMIC and de corporate expenses.

At the end of 1000, the Group formed a joint venture, GWC, with China Energy Conservation Investment Corporation ("CECIC"), thereby entering the water services market on the mainland. During the past year, GWC has rapidly secured a total of six water services market on the mainland. During the past year, GWC has rapidly secured a total of six water services projects, in Xingsian, Hunna Provineric Benghu, Anhur Provineric Xingsian, Chongqing and Huzhou, Chajiang Proviner, representing a total investment of RMB1,435 million with a daily capacity of 2.07 million tonnes of water supply and 700,000 tonnes of sewage treatment. Among these, the two joint venture formed by CWC and Xingsian Water Services Group Limited 夏月水 被国 有限全位 1 the end of 1sts year are regarded as the most significant water asset sequinision projects on the mainland in 2004. Xingsian GWC Water Supply Limited 夏月水 新中 東夏水 有限全 月 has total sastest and end sastest of IntMB270 million, with a daily water supply capacity of 995,000 tonnes. Xingsian GWC Sewage Treatment Limited 夏月水 费中 取月水 水果 现在现在 MB330 million, with a daily sexes get reatment capacity of 559,000 tonnes.

The Group aims to become one of the most important providers of water services in China. We will fully explore development opportunities and take advantage of government politicis that promote this market. By demonstrating the Group's and GECIC's competitive advantages in capital, technology and management, we can further expend the scale of our water supply, sewage treatment and pipoline network.

The Shanghai-Nanjing Expressway (Shanghai Section) Project is a toll road business wholly owned by the Group. The Shanghai-Nanjing Expressway is divided into two sections (Shanghai and Jiangaya). For Shanghai section, 2 & kilometers long, has some of the heaviest raffic in the Yangtez River Delta. During the year, despite expansion works and restricted truck entry on the Jiangay section. Since its disposal of its entire investment in fixed return slevated highway projects in 2001, the Group has strived to restricture its infrastructure facilities business, and the results of this were discernible in 2004. Shanghai-Naping Expressive (Shanghai Soction) and Shanghai Waigaeqino Container Terminal Co., Lid both contributed to the Group's profits during the year. While OWC, engaged in wear services business, is still in the initial investment stage, is commission to the Group's profits was minimal.

The Group's pharmaceutical business was still undergoing reorganisation. The acquisition of 31 United was completed at the end of 2004, hence its profit was not yet reflected in the Group's recount. On the other hand, the completed acquisition of a 55 percept rates in Liaoting Kerbayes, combined with operational growth to the Group's other pharmaceutical business entitles brought overall profit growth of 17.5% to the sector.

Profit from Ordinary Activities before Taxation

Gross priofit margin for 2004 was approximately 56.1%. Gross profit margin in 2003 was around 55.0%, excluding ster-tax compensation of FMB300 cuillion included in nursors artisig from the cancellation of fund return elevance highway project. The higher gross profit margin was mainly due to an increase in consumer products sales, which were able to optimize secondules of each in production.

Investment income for the year-decreased from around HK\$309,11 million in the previous year to HK\$323.57 million, representing a decrease of FK\$75.54 million. This year's investment income consisted of tressury income and unrealized profit of HK\$66.91 million, generated by the Hoig Kong and US public lighting of an indirect investment in China Netzon Group Corporation (Hong Kong), Limited. On the other hand, last year's investment, income consisted of realised and unrealized investment income consisted of realised and unrealized investment from to US Nasdaq public listing of the Group's investment in Ctrip.com International, Ltd.

Administrative expenses

Administrative expenses in 2004 saw an increase of HKS97.42 million over the pravious year. This was mainly due to the increase in number of subsidiaries and a provision of VHKS24.23 million for receivables and bank guarantees of a jointly controlled entity in the Group's medicine business.

Other operating expenses for the year were HK\$109.56 million higher than in the last year, which can largely be attributed to the Group's prudent principle of making provisions against risks and for impairment of certain long-term investments in the consumer products and medicine businesses.

Net gain on disposal of interests in subsidiaries, associates and jointly co

Net gain for the year, derived mainly from completion of SMIC's issue of Series D preference shares at a premium and its public share offering during the first half of 2004, as well as the introduction of new investors to Shanghai Sunway Biotech Co., Ltd

("Sunway Biotech") and MicroPort Medical (Shanghai) Co. Ltd., was much greater than profit in the previous year, which was realised mainly through-SMIC's issue and placement of Series C and D preference share as a primium, the disposal of the Group's 31% interest in Shanghai Oriest Shopping Centre Ltd., and the indirect disposal of the Group's 13-5% to Sunway Bioteches.

(6) Share of results of Jointly controlled entitles

The share of results of jointly controlled entitles during the year decreased to HK\$94.45 million from approximately HK\$172.64 million in the previous year. This was mainly due to a considerable decline in Shanghai Huizhong's profit as a result of the implementation of gusterity measures and price competition in the mainland automobile market.

(7) Share of results of associates

The share of results of associates during the year increased substantially to HK\$284.73 million, from approximately HK\$16.154 million in the previous year. This represents an increase of around HK\$123.19 million, largely attributable to a strong improvement in SMIC's business performance. The Group recorded a share of profits of HK\$35.64 million in 2004, in contrast to a share of losses of HK\$35.35 million in the previous year. EAS International Transportation Ltd, which provided profit contribution in the previous year, was disposed of, partly offsetting growth in the share of results of associates.

(8) Impairment losses recognised in respect of interests in an associate and for entities and goodwill relating to a subsidiary.

The Group recognised an impairment loss in respect of interests in a jointly controlled entity and an associate, both of which were engaged in the information technology business. The Group also recognized the goodwill impairment losses of a substidiery engaged in the pharmaceutical business and jointly controlled entities engaged in the pharmaceutical and information teneboology business.
